Random Stuff

The Graph of `$G$`

`$$ G = \bigcup_{k=0}^{9998} L_k $$`

`$$ L_k = \{ (x, y) \in \mathbb{R}^2 \mid (x, y) = (1-t)P(k) + tP(k+1), \, t \in [0, 1] \} $$`

`$$P\left(n\right)=R\left(n\right)\left(\cos\left(l\left(n\right)\right),\sin\left(l\left(n\right)\right)\right)$$` `$$R\left(x\right)=10^{-1}\left\lfloor 10\operatorname{random}\!\left(\right) \right\rfloor$$` `$$l\left(x\right)=2\pi\operatorname{random}\!\left(\right)$$`
